ABOUT ME

Full-stack developer with 10+ years of experience building scalable, resilient systems in high-growth environments. Strong background designing microservices, modernizing legacy systems, and improving engineering efficiency through clean architecture, testing, and observability. I take ownership of projects end-to-end and collaborate effectively with cross-functional teams to align technical decisions with business goals.

SKILLS

Skills: JavaScript, TypeScript, Node.js, PHP, React, MySQL, Git, Azure, Laravel, Symfony, Ruby on Rails

EXPERIENCE

Full-stack Developer

Buenos Aires, Argentina

PSH 2023–2025
